

Product Data Sheet

Application: Separating Walls

Isover Timber Frame Party Wall Roll

Acoustic Insulation for Timber Frame Separating Walls

Isover Timber Frame Party Wall Roll is a glass mineral wool roll that can be used to help reduce the passage of sound across a timber frame separating (party) wall and minimise air movement within the cavity, improving its thermal performance.

When used as part of Robust Detail separating wall constructions, it removes the need for costly pre-completion sound testing and can help exceed acoustic performance requirements set out in Approved Document E (England and Wales) and Section 5 (Scotland).

Features and Benefits

THERMAL INSULATION

Can achieve a zero U-value for party walls, as defined in Building Regulations (Approved Document L1A, Table 3), when fully filling the party wall cavity and in combination with mineral wool filled cavity barriers at the edges of the cavity.

COST SAVINGS

When used as part of a Robust Detail construction, it removes the need for costly pre-completion sound testing, making it a more cost effective solution to implement.

A1 FIRE CLASSIFICATION

Achieves a Euroclass A1 Reaction to Fire classification, according to EN 13501-1.

CONTAINS RECYCLED GLASS

Isover Timber Frame Party Wall Roll contains recycled glass. A combination of 52% externally sourced recycled glass and 30% internally sourced glass cullet.

ACOUSTIC INSULATION

Helps reduce unwanted noise between attached properties when used as part of a Robust Detail construction.

RENEWABLE ELECTRICITY

All electric equipment in the plant powered by 100% renewable electricity.

Key Considerations

When using Isover Timber Frame Party Wall Roll, you need to satisfy yourself that use of the product meets all relevant national Building Regulations and guidance as well as local, national and other applicable standards relevant for your construction or application, including requirements in relation to fire and applicable height restrictions.

Please refer to isover.co.uk for all current documentation relating to this product.

Product Specification

Product code	Thickness (mm)	Length (m)	Width (m)	Roll area (m ²)	Rolls per pallet	Pallet area (m ²)	λD Declared thermal conductivity (W/m.K)	RD Declared thermal resistance (m ² .K/W)
5200625559	50	12.00	1.20	14.40	24	345.60	0.036	1.35
5200625561	75	8.00	1.20	9.60	24	230.40	0.036	2.05
5200625563	100	6.00	1.20	7.20	24	172.80	0.036	2.75

Characteristics

Thermal Declared thermal conductivity of 0.036 W/m.K under EN 13162: Thermal insulation products for buildings. Factory made mineral wool (MW) products.

Environmental All Isover products are manufactured under Environmental Management System - ISO 14001.

Certification UKCA Marked to BS EN 13162.
CE marked to EN 13162.
Designation code: MW-EN 13162-T3.

Handling, Storage, Health and Safety Information regarding storage, installation and handling of Isover products and health and safety information can be found at isover.co.uk/suis.

Quality All Isover products are manufactured under Quality Management Standard - ISO 9001.

EUCEB EUCEB certified demonstrating our mineral wool fibre products conform with Note Q of Regulation (EC) No 1272/2008.

Indoor Air Quality Achieves a Eurofins Gold product status for indoor air quality.
