

**HELPS MEET UPDATED  
SCOTTISH REGULATIONS**

# **TIMBER FRAME ROLL 32**

**TFR 32 is Iover's highest performing Timber Frame external wall product.**

Developed to help meet the minimum U value required for external walls in Scotland and Wales, TFR 32 also provides significant acoustic benefits, is quick and easy to install, and offers the same high quality you have come to expect from all Iover products.

A key component in achieving U values of  $0.22\text{W/m}^2\text{K}$  and below.

Pre-cut to  $2 \times 580\text{mm}$  for easy installation at  $600\text{mm}$  timber stud centres

Excellent acoustic properties

Can be installed in a single drop to help eliminate air gaps and thermal bridges

Push fit with no need for additional fixings

Also suitable for use in warm roof applications
